

化学反应机理专项练习

姓名

学号

参考答案

本专项练习中所有箭头均为“ $\curvearrowright$ ”

代表一对电子的转移!

用箭头标注下列反应机理中的电子流向:

20.2 DRAWING THE MECHANISM OF ACETAL FORMATION

STEP 1 Draw the three steps necessary for hemiacetal formation.

STEP 2 Draw the four steps that convert the hemiacetal into an acetal.

20.3 DRAWING THE MECHANISM OF IMINE FORMATION

STEP 1 Draw the three steps necessary for carbinolamine formation.

STEP 2 Draw the three steps that convert the carbinolamine into an imine.

20.4 DRAWING THE MECHANISM OF ENAMINE FORMATION

STEP 1 Draw the three steps necessary for carbinolamine formation.

STEP 2 Draw the three steps that convert the carbinolamine into an enamine.
